

I am an over the road truck driver, who pays and is subscribed to XM radio. The weather and traffic channels keep me up to date on conditions that I need to be aware of. I also enjoy listening to the numerous other channels, such as unsensored comedy and sonic theatre, something I cannot get on regular radio. I pay for these services, and I dont believe its right for the National Association of Broadcasters to dictate what I hear. I please urge you to reject NAB's petition 04-160. If people dont like what they are listening to, they have the free will to change the channel or not pay for the service. Thank you, James
